Keeping your voice front and centre

We help you at your pace, towards your goals. You can take a break, pause, and come back to Parent Pathways whenever you need.

Participants can also join our **parent advisory group** which meets every six months at child-friendly locations for informal feedback. This helps us improve the way we support you and others and is a great way to connect with other families in the community.

Let us know how we are going

In addition to the parent advisory group, **feedback can be made any time** via our online form or by calling YFS' feedback line on 07 3826 1596 to leave a message.

You can also provide feedback via the Department of Employment and Workplace Relations.
